

**Wood Environment & Infrastructure Solutions** has an exciting career opportunity in our Water Management group for a **Junior Hydrogeologist**. This position is based in the **United Kingdom** and will support our environmental, infrastructure, municipal and mining work. The position will report to one of the group's Senior Hydrogeologists and will be based in our Shrewsbury office.

The successful candidate will be working with a highly motivated team of professionals delivering quality services on technically challenging projects. You would become involved with primarily hydrogeological investigations to support multi-disciplinary projects in a variety of fields, including environmental, dewatering assessments and permitting, water supply, mining, oil and gas, and energy projects.

### **Skills / Qualifications**

- Undergraduate Degree (B.Sc.) in Geoscience or Civil/Environmental Engineering with a focus on Hydrogeology (M.Sc.)
- Strong technical, verbal, and written communication skills (English) are required.
- Team-oriented, self-motivated and safety conscious.
- Ability to work independently in both field and office environments with strong attention to detail and organizational and problem-solving skills.
- Competency with MS Office suite of applications.
- Experience in groundwater modelling and programming languages (Python, Fortran) considered an asset.
- Some technical report and/or document writing experience an asset.
- Experience with ArcGIS or QGIS considered an asset.
- Must be willing to travel (mostly within the UK).
- Spanish (written and spoken) will be an asset.
